Applicant's election with traverse of Group III, claims 7, 9 and 10 in the paper filed on 6-18-3 is acknowledged. The traversal is on the ground that "search and examination of the entire application could be made without serious burden." This is not found persuasive because the reasons for insisting on restriction as stated in MPEP 808 have been clearly met. The requirement is still deemed proper and is therefore made FINAL.

Claims 1, 3, 4, 6 and 12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7, 9 and 10 are rejected under 35 U.S.C. 101 as being non-statutory because they improperly embrace or overlap two different statutory classes of invention, namely, apparatus and process of using the apparatus, which statutory classes are set forth only in the alternative in 35 U.S.C. 101.

Specifically, the claims are identified as apparatus claims, but the limitation, "wherein the substrate main body is cut along the contour line" is a process limitation.

Also claims 7, 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, because they are directed to both an apparatus and a process of using the apparatus. As a result, the scope of the claims cannot be determined. See MPEP 2173.05(p)II.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
